Petition Opposing NJ Alcohol/Wine Tax Increase

Have your employees and customers fill out this petition opposing Governor Corzine's proposed 25% increase in the excise tax on wine and distilled spirits. A tax increase will not solve our state's economic problems and this tax is a direct target at the hospitality industry and our customers. Higher taxes will force us to pass the tax increase along to our customers, and now is NOT the time to be taking more money out of our customers' pockets. Say no to higher taxes on wine and distilled spirits!
